Mediums, Faster drying...

.I use Graham's Walnut Alkyd Medium..(but, again use  
whatever you are familiar with)

....otherwise...just use Gamsol or Turpinoid

## **Panels or Canvas:**

4- 5 panels or canvas in your comfort zone ranging  
from 11x 14 to 18 x 24

We have four weeks of content..so at least 4 paintings  
that you will start....more if you feel up to it! 😊

I usually tone my surface first with a neutral cool- grey tone.....(you can even use acrylic for this)...but many times I do it w/ alkyd just before I start to paint...  
Apply like furniture stain until you get the desired value (not too dark - a #7 or #8 -if 0=Black and 10=White)  
....I like using Centurion panels lately linen mounted on panel or New Traditions but, cheaper panels are fine > (I frequently use cheap store brand (like Dick Blick) and add a coat or two of gesso to make them more suitable.

Boards are easier to store and to use a “wipe-out” technique if you want to try that.

Rags or Paper towels, coffee, meds, snacks... all the essential stuff. :)
